Act of Chamber of Commerce Won't Delay Construction of Hospital.

ONLY OPPOSES LOCATION

Senator Gallinger Assures Committee of Business Men a Full and Fair Hearing.

Little doubt exists in the minds of those familiar with the situation that the action of the Chamber of Commerce at its regular meeting Tuesday night in Senator Gallinger with a view toward protesting against the plan of erecting the new municipal hospital on the ground owned by the District at Fourteenth and Upshur streets, will tend Toward postponing, perhaps indefinitely, the construction of this institution.

John Joy Edson, president of the Board of Charities variety made a lengthy

of Charities, yesterday made a lengthy statement voicing his regret over the chamber's action and adding that it was "an error growing out of cuthusiasm to do the right thing."

Chamber Not Opposed.

President William F. Gude, of the Chamber of Commerce, and other members and officers of that body yesterda emphasized that it is erroneous to as-sume that the chamber is opposed to the new building. What it is opposed to the the idea of creeting an inebriate asylum in a residential district, as was explained in yesterday's issue of The Washington

The committee was specifically in-structed to make recommendation for

other sites.

The stand of the Chamber of Commerce on the whole proposition was manifested by the fact that an attempt by one of the members at the meeting to have the item for the new institution stricken off the District appropriation bill and have the plan postponed, was voted down unanimously, out of fear, it was pointed out by speakers, that postponement in this case may mean eradication of the whole plan for an institution which is badly needed and for which the which is badly needed and for which the Phot District has been fighting for the last ten hall.

Mr. Edson explained yesterday that the new institution is not to be an inebriate asylum, but simply a municipal hospital. He asserted that in his opinion, the grounds at Fourteenth and Upshur streets are best fitted for the purpose in question, and added that the residential section would, to his mind, in no wise suffer be-cause of the proximity of such an insti-tution. His statement follows:

Regrets Action of Chamber.

The action of the Chamber of Com nerco last night in protesting against he establishment of the new municipal the establishment of the new municipal hospital on the Fourteenth and Upshur-street site provided for by Congress and selected by the Commissioners about ten years ago, is, I feel, greatly to be re-

gretted.
"I feel that had all the facts been known the chamber would not have taken this action. It is disappointing because of the efforts that have been made for so many years by the Commissioners. Board of Charittes, and other organizations for the establishing of a municipal hospital that would provide proper care of suffering humanity that has no other

place to which to go for treatment.
"The chamber was misinformed "The chamber was misinformed as to the character of the proposed institution, since it appears there was an unterstanding that it was to be an inebriate spital and almshouse. The almshouse s known as the Home for the Aged and two charges of petit larceny, it being afferm, at Blue Plains. It contains 70 alleged he stole an overcoat and a viociers of land, was purchased about ten ten from Samuel R. Cranford and John years ago and has been equipped with B. Ryan, of the Terminal Y. M. C. contains such an unusually large number of acres, about thirty-five in all, it will be possible to group the buildings and grounds in such a way as to give the institution a decidedly attractive ap-pearance. I am certain there will be no detraction or injury to that section of the city. In a not very distant future this site will be the center of the city.

Praises Senator Gallinger. In referring to Senator Gallinger, Mr.

Mr. Edson pointed out that protest was made against the locating of the John Dickson Home, the porkhouse and the Home for the Aged and Infirm on their respective sites, but that these institu-tions have increased property values in their neighborhoods and are now looked

ndeavored so long to have Congress provide for a municipal hospital. I look upon it as an error growing out of enthusiasm to do the right thing."
